

Corporate Environmental Statement

Environmental Commitment

INPS Group of companies is committed to reducing our environmental impact. Our goal is to make environmental sustainability a priority in all aspects of our business model. During planning, and throughout the manufacturing process, we are mindful to reduce, reuse and recycle as much as possible. We are committed to reducing our emissions, energy use, water consumption and waste and continuously monitor, analyze and improve our practices, processes and policies to enhance the margins of safety for both people and the environment.

Employee Partnership

INPS has invested in educating our employees of the importance of sustaining the environment and share what the organization is doing to help conserve resources. We encourage Employee suggestions and input that will help us achieve our environmental sustainability goals.

Water and Electric Conservation

To reduce our environmental impact we have implemented sensor lights throughout our facility to conserve energy, and have converted to water-efficient rest facilities. We are committed to sourcing Energy efficient products and encourage our employees to be mindful of conserving water and electricity whenever possible.

Recycling Program

We have developed in-house programs for recyclable plastics, glass and paper products as well as computers, monitors and electronics.

Chemical Management

We strive to ensure the safe handling and disposal of any chemicals.

Supply Chains

We are an ISO certified company that strives to purchase locally when possible. We continually strive to find better ways to package our products using the minimal amount of packaging supplies while maintaining product integrity.

Sustainability Work Policies

INPS encourages employee involvement in pollution prevention and environmental awareness, through continual training and re-evaluation of company practices. It is our priority to make environmental issues an integral part of forward planning and the focus of product development.
