

Transit Parts & Specialty Components

TRANSIT Solutions

Transit Parts & Specialty Components

Glass Protection Film

Keep your windows clean and maintain your professional image by applying 4 layer, 2 layer or single layer film. Featuring 3M™ Scotchgard™ Multi-Layer Protective Film 1004.

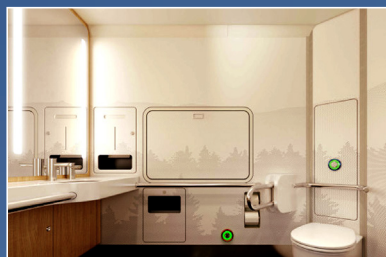

Control Panels

Panels are custom manufactured to achieve the best results for each Cab Enclosure. Fire retardant and scratch resistant exterior provides for a clean, new-looking finish. Optional embedded LED backlighting.

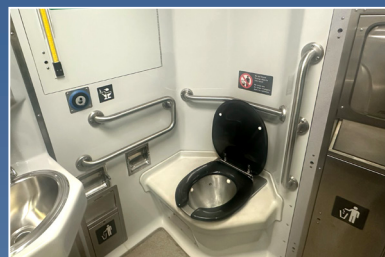

Braille Signage & Decals

Polycarbonate embossed braille signage with 3M adhesive.

Decorative Wall Graphics

INPS uses 3M films to create stunning graphics on interior walls and windows. We use 3M™ DI-NOC™ Architectural Finishes and 3M™ FASARA™ Glass Finishes.

Fiber-Reinforced Plastic

Fiberglass is able to be molded in various complex shapes ideal for interior solutions.

Thermoforming

INPS thermoforms wall panels, window panels, stairwell panels and seat shrouds for train interiors.

Extruded Products

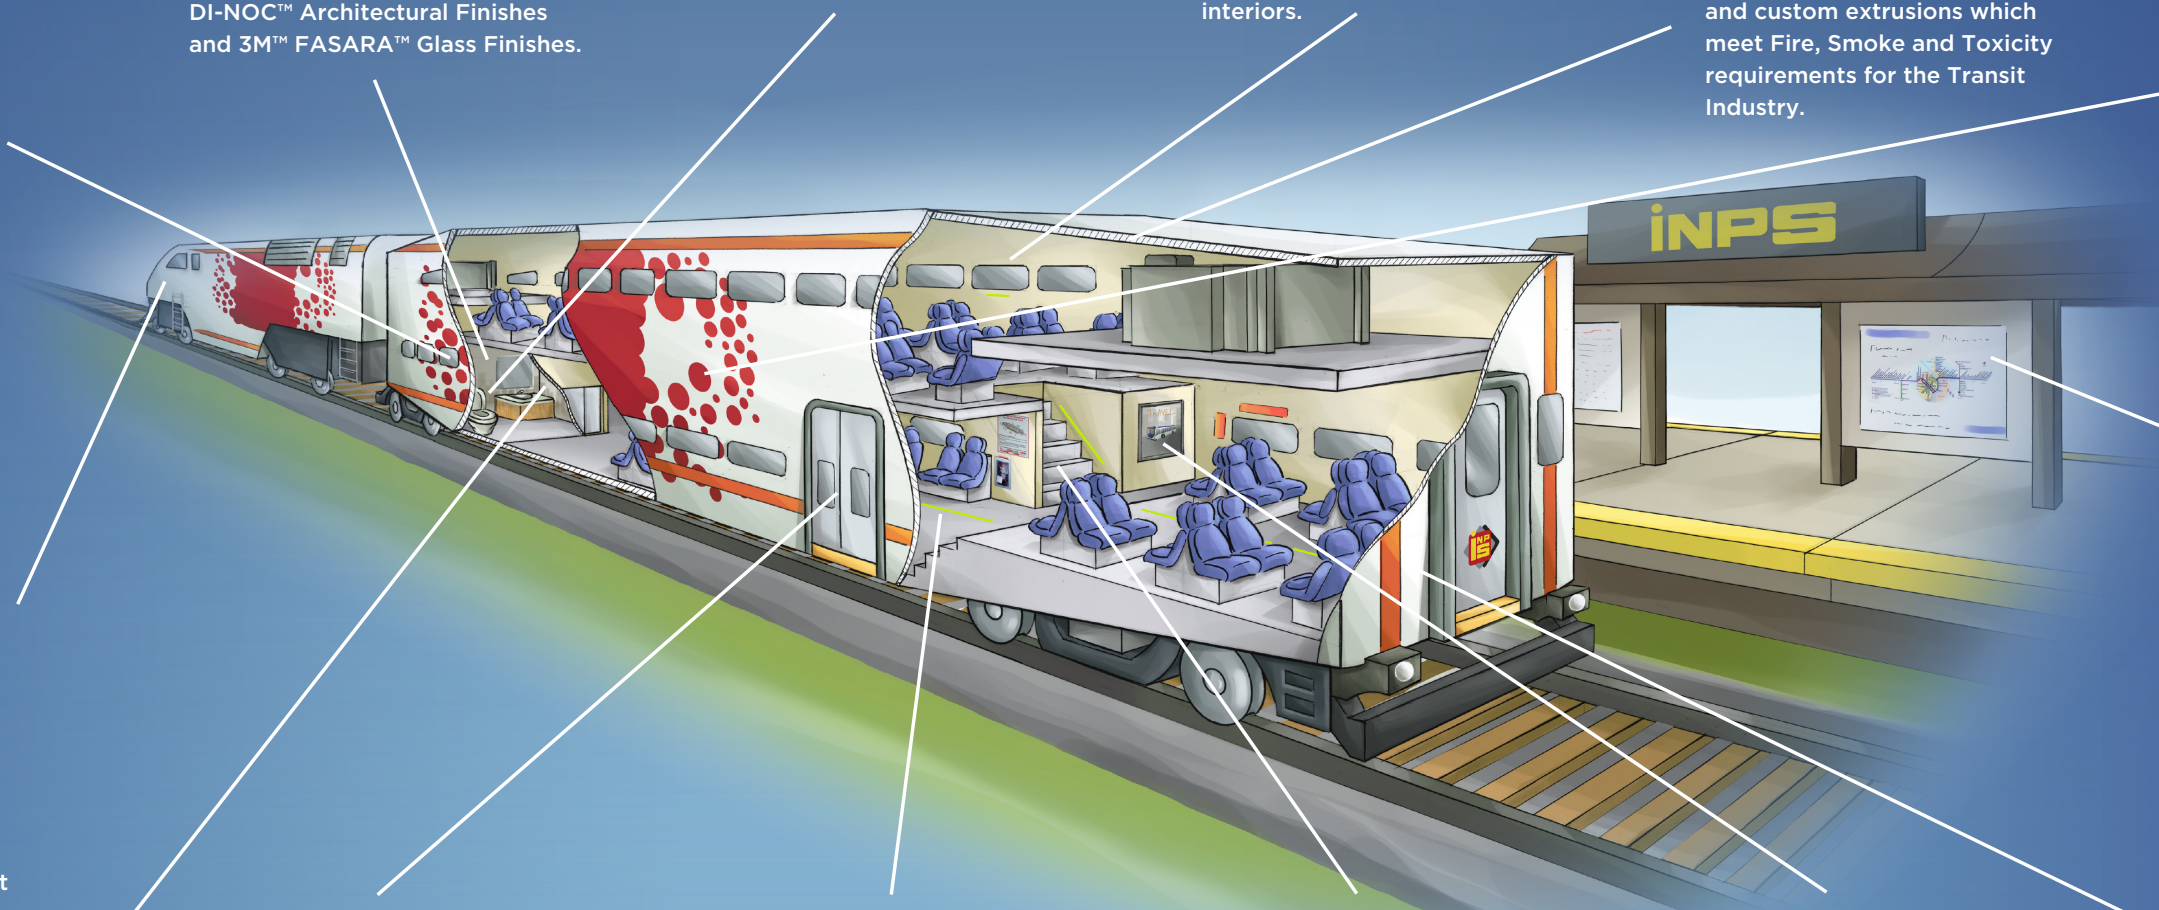

INPS offers extruded aluminum and various plastic and rubber products. We offer both stock and custom extrusions which meet Fire, Smoke and Toxicity requirements for the Transit Industry.

Exterior Livery

INPS manufactures high quality, reflective exterior transit graphics; from full vehicle wraps to safety decals and striping.

As a 3M Select Platinum Graphics manufacturer and installer, we design, produce and install vehicle decals and wraps for the transit industry.

Station & Platform Signage

INPS offers comprehensive wayfinding solutions for stations and platforms.

HPPL Signage

Firefly High Performance Photoluminescent (HPPL) decals not only comply with the latest industry standards, but have set the bar in HPPL decals.

HPPL LLEPM

Firefly Low-Level Exit Path Markings (LLEPM) products are manufactured using the highest quality materials in terms of durability and safety. They are suitable for new or existing rubber, carpet floor coverings and walls.

Stairs & Stairway Markings

INPS fabricates fiberglass stairwells and is capable of building custom solutions to suit any railcar. INPS offers Anti-skid/Anti-slip resistant solutions for stair safety and LLEPM solutions.

Advertising Frames

Made from durable aluminum extrusions. Custom sizes, round or square corners and no tooling required.

Frangible Panels

INPS manufactures custom covers for fire extinguishers, first aid kits, emergency tool kits and door access.

Why Work with INPS?

- Customer service
- In-house Engineering Department
- In-house Art Department
- Customized Solutions
- Experts in Transit
- APTA Members
- Locations throughout North America
- Over 50 Years Experience in Transit

CANADA

London, Ontario
Milton, Ontario

USA

Longview, Texas
Sacramento, California

MEXICO

Matamoros, Tamaulipas
Monclova, Coahuila
Frontera, Coahuila
Sahagun, Hidalgo
Tlaxcala, Tlaxcala

INPS Group Products:

Locomotives

- Air Conditioners
- Auxiliary Power Units
- Sound Damping

Transit Cars

- Regulatory Signage and Components
- HPPL (High Performance Photoluminescent) Decals
- LLEPM (Low-Location Exit Path Markings)
- 3M™ Scotchgard™ Multi-Layer Protective Film 1004
- Thermoformed/Vacuum Formed High Pressure Laminate (HPL) Panels
- Fiber-Reinforced Plastic (FRP) Solutions
- 3M™ DI-NOC™ Architectural Finish
- Exterior Livery

Distribution of Locomotive and Transit Parts

INPS Group helps authorities across North America save on parts, reduce sole-source dependence, and develop new solutions.

INPS Environmental Products for Locomotives

Air Conditioner (A/C)

Each component offers a modular design for ease of installation. The locomotive Orange (A/C) unit has 72VDC power and no inverter.

Auxiliary Power Units (APU)

The proprietary Banana APU is designed to reduce excess idling, save fuel, reduce locomotive engine wear and keep your crew comfortable.
