

OFFERING SOLUTIONS, NOT JUST PRODUCTS.

A versatile group of companies ready to assist you.

TRANSIT Solutions

Photo® @capital_rails_and_transit

With the ever changing evolution of transportation especially in rail, engage with a company that addresses your current and future needs.

NPS Group is a global supplier to the industry. With operations in Canada, USA and Mexico, we serve both the domestic and international markets.

Through our in-house capabilities and numerous group companies under the INPS Group, we provide full-scale component acquisition, design services and installation support to our clients. INPS seamlessly integrates itself into your company.

Locomotives

Air Conditioners (A/C)

Each component offers a modular design for ease of installation. The locomotive Orange (A/C) unit has 72VDC power and no inverter.

Air Conditioners

Auxiliary Power Unit

Auxiliary Power Units (APU)

The proprietary Banana APU is designed to reduce excess idling, save fuel, reduce locomotive engine wear and keep your crew comfortable.

Sound Damping

The INPS Sound Damping System reduces noise and vibration inside the cabin environment. This multi-layered panel system is a staff installed product. It cleans up the look of the cabin interior and is custom-made to fit all locomotive models. It is compliant with all current industry standards. It is fire retardant, as well as scratch and dent resistant.

Strategic Sourcing & Engineering Solutions for Freight Locomotives

INPS provides a one-stop shop for product development, manufacturing, and supply chain management for our clients. Employing our long-standing relationships with a portfolio of manufacturers in the North American, South American, and European markets we protect our client's intellectual property and improve reliability of their fleet.

Transit Cars

Regulatory Signage & Components

We offer a large range of interior graphic components including: regulatory, braille, control panels, safety decals, wayfinding and instructional signs. Our Frangible Panels/Lexan covers can be manufactured as required. First aid kit, emergency tool kit and door access. All our signs meet APTA Standards. APTA SS-PS-004-99, Rev.2/APTA SS-PS-002-98, Rev.3

Livery & Exterior Graphics & Wraps

High Performance Photoluminescent (HPPL)

INPS has developed turnkey solutions that include Emergency Signage for Egress/Access of Passenger Rail Equipment. HPPL Decals exceeds the latest industry standards. Firefly™ addresses the needs of safe evacuation from rail cars, buildings or transportation corridors.

Low-Location Exit Path Marking (LLEPM)

INPS works closely with mass transit car builders and authorities to design, engineer and manufacture luminous egress systems. Firefly LLEPM products are manufactured using the highest quality glow in the dark materials.

Sound Damping

Trim and Wall Panels Formed to Fit

Firefly HPPL and LLEPM

APTA SS-PS-004-99, Rev.2 / APTA SS-PS-002-98, Rev.3

3M™ Scotchgard™ Multi-Layer Protective Film

They are suitable for new or existing rubber, carpet floor coverings and walls. LED-charged Emergency Exit path markings are also available.

3M™ Scotchgard™ Multi-Layer Protective Film 1004

Four separate layers of optically transparent, pressure-sensitive polyester film tape designed to protect surfaces from damage caused by scratching, etching, abrasion and graffiti. Passenger Car window/Anti-Graffiti Film allows a damaged film layer to be quickly and easily removed, exposing a fresh protective sheet.

Thermoformed/Vacuum Formed High Pressure Laminate (HPL) Panels

INPS thermoforms/vacuum forms wall panels, window panels and stairwell panels for bi-level train interiors.

INPS also manufactures high pressure laminates (HPL) for transit car ceilings and walls. We offers a full catalogue of existing transit components, custom component design, engineering and manufacturing services, sample engineering and component retrofits, as well as Installation services.

A Interior & Exterior Decals Supply & Install

Fiberglass Reinforced Plastic (FRP) Solutions

We are continuously developing innovative and maintenance friendly solutions for mass transit vehicles including: Interior fiberglass panels, fiberglass window freezes, masks arc shields and toilet seats. With onsite engineering, INPS can build from concept to finish product.

TRANSITSolutions

3M™ DI-NOC™ Architectural Finishes

3M™ DI-NOC™ Architectural Finishes

Don't replace fixtures and surfaces, resurface them in decorative metal, stone or wood designs at a fraction of the cost. 3M™ DI-NOC™, with more than 1000 patterns to choose from transforms your space with less downtime and labour. These durable, dynamic films are easy to install and conform to a variety of flat or curved surfaces found in rail cars.

Exterior Graphics & Wraps

Low VOC and Branding Solutions. INPS manufactures high quality, decorative and reflective exterior graphics and full-wrap solutions using 3M™ Scotchcal Film. We offer complete programs along with refurbishing and rebranding which helps to reduce train downtime, leading to lower total cost.

Distribution of Locomotive and Transit Parts

INPS Group helps authorities across North America save on parts, reduce sole-source dependence, and develop new solutions.

Railway Infrastructure

Signal Cabinets

Our patented Signal Case Replacement System for Railway infrastructures permits replacement of a deteriorated signal case in as little as four hours without the need to disconnect electrical relays or circuits. By using this process, trains travel freely on the affected tracks while the work is underway and the elements of risk and expensive track slowdowns are completely eliminated.

INPS Group Products:

Locomotives

- Air Conditioners
- Auxiliary Power Units
- Sound Damping

Transit Cars

- Regulatory Signage and Components
- HPPL (High Performance Photoluminescent) Decals
- LLEPM (Low-Location Exit Path Markings)
- 3M™ Scotchgard™ Multi-Layer Protective Film 1004
- Thermoformed/Vacuum Formed High Pressure Laminate (HPL) Panels
- Fiberglass Reinforced Plastic (FRP) Solutions
- 3M™ DI-NOC™ Architectural Finish
- Exterior Graphics & Wraps

Railway Infrastructure

- Signal Cabinets

Distribution of Locomotive and Transit Parts
